Leederville 6007 Western Australia

Dear Mr. Crommelin,

Miss McDonald sent me a copy of your letter from Dr. Evan Owens. His results after treatment with Fasigyn are disappointing to say the least. His report is contradictive to what we know as true. The enclosed copy was sent to me through the mail by Dr. E. Harrison Clark. I think his personal observations are worth more than the rheumatologist, Dr. Owens. In my experience with Flagyl it works equally as well without appreciable side effects. I give 2 grams after supper on two successive days each week for as long as necessary.

It was nice to hear from you.

Yours truly,

J.M. Blount, M.D.
